
ARJUN TEOTIA

Technical Lead (10+ Yr Exp.),

Pune, India

+91 9971-756-334

teo.arjun@gmail.com

With over 10 years of experience in **architecting, building, and leading end-to-end software products**, I have consistently delivered high-impact solutions with strong emphasis on user experience, platform scalability, system reliability, and technical excellence.

As a technical lead, I combine hands-on engineering capability with **clear communication, structured execution, and team mentorship**. I've led cross-functional teams through complex delivery cycles, improved engineering processes, and enabled efficient release pipelines across multiple product ecosystems.

My work spans a broad range of modern technologies, cloud platforms, and application architectures, allowing me to operate effectively across the full product lifecycle—from **design and strategy** to **delivery and optimization**. I value ownership, accountability, and creating environments where teams can execute with confidence and autonomy.

AWARDS & ACHIEVEMENTS -

- Uplers Certified Talent (India's top 3.5% talent)
